## ■ Application

MECB-63 miniature circuit breaker is suitable for AC 50/60Hz rated voltage 230V/400V, rated current up to 63A lines for overload and short circuit protection, also under normal conditions as infrequent operation conversion of lines.

The circuit breakers are suitable for use in various places such as industrial, commercial, high-rise and civil housing.

Standards: GB/T 10963.1, IEC60898-1.
